

Moisturizing Lip Gloss

IGI ISO-Polymer in conjunction with Microsere Microcrystalline Wax can be used in this base formulation to make a moisturizing lip gloss. IGI ISO-Polymer is the gelling agent that holds this formula together. Microcrystalline wax forms a protective film on the lips for moisturization. This formulation may be customized by the addition of flavors, colors, antioxidants, preservatives and sunscreens.

Ingredients	INCI Name	%
Polyisobutene	Hydrogenated Polyisobutene	43.0
Caprylic Capric Triglycerides	Caprylic Capric Triglycerides	25.0
ISO-P 130	C20-28 Polyolefin	15.0
